

Optimize the Way Your Clinic Manages Compliance

medicat

Unsure of how big of an impact immunization verification workload has on your team?

Here are the numbers:

For every
3,000
new students

1,000+
working hours
are required over
the summer

Resulting in
2 more
full-time employees

Immunization compliance management can impact your clinic in many ways:

- Increased workload of up to 100+ hours per week
- Constantly hiring and training new temporary workers
- Struggling to ensure compliance with enrollment policies
- Taking providers away from student care to check immunization records

Discover a new (and much more effective) way to manage immunization compliance:

Impactful Integrations

Easily connect with your Student Information System

Faster Filtering

Segment data for efficient review

Easier Communication

Remind students of updated requirements and missing records

State Registry Interface

Streamline compliance by retrieving existing immunizations

Immunization compliance doesn't have to drain your clinic's resources.
